

Workshop Description

Why Attend?

As a facilitator, you own the meeting process design – a series of deliberately sequenced activities intended to lead to targeted outcomes. Yet the most challenging skills for a developing facilitator is learning which process tools or activities to use to create a natural flow to the dialogue, build trust and fully leverage the expertise in the room.

In this one day workshop participants will explore the critical elements of great meeting design and expand their “toolkits” by learning and practicing highly engaging, proven process tools and techniques. Based on class needs, we will delve into problem solving, consultative feedback, ideation or decision-making processes that can be applied in your very next meeting. The workshop has also been designed to utilize a curated collection of some of our favorite techniques!

Please note: Participants must have completed either the one-day Facilitating Meetings That Work or the two-day Facilitating Meetings with Ease (or a comparable) workshop to enrol in this course
